

AURUMIN COMPLETES \$2.2M PRIVATE PLACEMENT

Highlights

Successful Placement

- Firm commitments received to raise a total of \$2.2 million through the issue of 40 million shares at an issue price of \$0.055 per share (**Placement**). The Placement was strongly supported by existing institutional shareholders and directors.
- Bids received well in excess of the offer size and scaled back.
- Firm commitments from directors totalling \$203,500 with director participation subject to shareholder approval.
- Proceeds from the placement will be used to fund exploration and project development activities across Aurumin's highly prospective tenure.

Aurumin's Managing Director, Daniel Raihani, commented:

"We would like to thank existing institutional shareholders, and directors for their support of the Placement. Aurumin is debt free with a strong cash position, having strengthened the balance sheet, unlocking the potential for growth."

"Following recent board changes we will be undertaking a strategic review of our portfolio with a view of unlocking further value to all shareholders, the gold market remains very strong and we look forward to updating shareholders of future plans in due course."

"As a significant shareholder of the company I am very excited about the developments in the Sandstone region and what value this can create for Aurumin shareholders."

Placement

Aurumin Limited (ASX: AUN) (Aurumin or Company) is pleased to announce that it has secured firm commitments to raise a total of \$2.2 million (before costs) through the issue of 40 million shares at an issue price of \$0.055 per share (**Placement**). The Placement was well-supported by both existing and new shareholders.

Included in the \$2.2 million, directors have committed their support with a collective \$203,500, with director participation being subject to shareholder approval at a General Meeting expected to be held no later than January 2025.

Excluding shares to directors, the Placement will be completed in a single Tranche pursuant to the Company's placement capacity under ASX Listing Rule 7.1. The issue of new shares is expected to occur on or around 11 December 2024. The new shares to be issued under the Placement are fully-paid ordinary shares and will rank equally with existing shares on issue. An Appendix 3B for the proposed issue of shares in respect to the Placement will be lodged following this announcement.

The issue price of \$0.055 represents a discount of 9% to the closing price on 2 December 2024 and 7.5% to the 10 day VWAP.

ABOUT AURUMIN

Projects

Aurumin Limited is an ASX-listed mineral exploration Company focused on the Sandstone region in Western Australia.

The **Sandstone Operations** were cornerstone by the acquisition of the **Central Sandstone Project** by the Company in early 2022.

- The **Central Sandstone Project** comprises an **881,300 ounce gold mineral resource**, significant project infrastructure and an expanding tenement footprint where the Company aims to support a gold mining operation in the future.^{2,3}
- The Company's **Johnson Range Project** has a Mineral Resource of **64,700 ounces at a grade of 2.51g/t Au**, located midway between Southern Cross and Sandstone.¹
- The **Birrigrin Project** area was added in late 2022 and is 70km north of the Central Sandstone Gold Project. The Project has 39 mapped shafts dating to the early 1900s with **recorded production grades up to 196g/t Au**.
- The **Central Sandstone Project** also has **DSO iron ore potential**, that the company is looking to advance in parallel with the gold Resources. The company has identified a discontinuous 6km strike of banded iron outcrops, with potential widths of 5 to 40m and a peak grade of 67% Fe from rock chips.⁷

In addition to the Sandstone Operations, the Company has a significant landholding at its **Southern Cross Operations**.

- Mt Dimer regionally has a substantial tenure footprint with gold and iron ore potential. The Company is currently working towards completion of the sale of iron ore rights to MinRes for a combination of upfront and milestone cash payments and a \$1/t royalty.⁴
- The **Mt Dimer Mining Tenements** have been divested to Beacon Minerals Limited (Beacon). Historically the Mt Dimer Mining Tenements produced over 125,000 ounces of gold from open pit and underground production of approximately 600,000 tonnes @ 6.4g/t. Aurumin retains a 2% net smelter return royalty on gold production above 12,000 ounces and on all other minerals, and Beacon have released an initial Reserve of 21,100 oz Au.^{5,8}
- The **Mt Palmer Project** historically produced via open pit and underground methods, generating approximately 158,000 ounces of gold at an average grade of 15.9g/t. Aurumin has divested 51% of Mt Palmer to Kula Gold Limited, who can earn up to 80% by spending a \$1M over 3 years. Aurumin can dilute to a 1% royalty on all minerals.⁶

The Company is actively exploring its tenements and pursuing further acquisitions that complement its existing focus and create additional Shareholder value.
